

Floater Frames - March Newsletter

We used a floater frame for this nautical picture...no pun intended! You may have heard of this frame type. It is used on a canvas with painted sides where the frame does not cover any part of the face of the canvas. The picture actually floats on the back of the frame where it is screwed down. This picture belongs to one of my long-time Cary customers.

“Have frames, will travel” is my slogan and it means that I will visit you for a free framing consultation and free delivery when your framing is done. Call, email or visit me on Fridays at Chambers Arts Gallery in Cary at Ashworth’s Village
