

# Happy Holidays!

**How about an original hand-crafted gift?** My husband Joe and I made these racks and birdhouses with wood from our garden, collected bits, and upcycled jewelry, knobs, and hooks. Who doesn't always need a place to hang their hat, scarf, and leash? Fun and functional, our birdhouses are sure to please.

Each work is one of a kind, signed by Judie & Joe. Pictured below is this year's limited selection.
