

Vivid Colors – July News

My customer and friend, Sabra, framed this peacock picture that her stepdaughter made for her. Look closely and you can see that it is composed of thousands of little dots. The process is a Diamond Dotz kit, where thousands of little crystal dots are glued together to form a picture. She must be a very patient person!

Because the colors were so vivid, we found that a bright blue mat was one of the few colors that could showcase the image. A simple bronze frame completed the picture. Both of you get a blue ribbon for this one!

“Have frames, will travel” is my slogan and it means that I will visit you for a free framing consultation and free delivery when your frame work is done. I am happy to come to your house, your office, or another location of your choosing. It is very helpful to select framing materials in the area

where the picture will be hanging since it is easy to hold samples up for comparison. You can trust me with your pictures because I have been framing for over 40 years.
