

Spring Birdhouses – March News

Spring is the time to put up new birdhouses so the birds have places to build their nests and raise their babies. We have made some reclaimed birdhouses that you might like!

My husband, Joe, and I made these birdhouses out of reclaimed wood, old tin, and decorative, antique objects. The wood and tin were saved from an old house and chicken coup on the family farm that had been torn down. Each birdhouse is one-of-a-kind as the source of all the materials is limited.

All of the birdhouses can be opened for cleaning and the holes are sized for bluebirds and smaller birds.

“Have frames, will travel” is my slogan and it means that I will visit you for a free framing consultation and free delivery when your frame work is done. I am happy to come to your house, your office, or another location of your choosing. It is very helpful to select framing materials in the area where the picture will be hanging since it is easy to hold up samples for comparison.
