

Found Objects – July News

My husband found all of these arrowheads, spear and tomahawk heads on the farm where he grew up. He saved them rolled up in a towel until he was in his 30's. I thought they should be displayed, so I framed them. I secured them with copper wire so as not to get any glue on them.

These next two pictures were sent to me by a friend, showing other ways to display arrowheads, and I'm sure these are glued down. The patterns are very eye-catching.

Look and see if you are storing some amazing **found objects** that you would like to display! I would be very happy to help you find a attractive way to frame them.

“Have frames, will travel” is my slogan and it means that I will visit you for a free framing consultation and free delivery when your frame work is done. I am happy to come to your house, your office, or another location of your choosing. It is very helpful to select framing materials in the area where the picture will be hanging since it is easy to hold samples up for comparison. You can trust me with your pictures because I have been framing for over 40 years.
